

VICTIM IMPACT SPEAKERS

DANNY'S STILL HERE

Victim Impact Speakers, with the help of Stage Struck Productions, has produced a marvelous new film for use in driver education classes and school assemblies. Danny's Still Here shows the vast changes in one family's lives because of a sudden event, a death through reckless driving. While the movie has humor and an exciting, fun finish, its essence deals with a very modern-day concern involving legal and profound psychological issues. Currently renting at Family Video stores throughout the Midwest, the movie is now available for purchase by high schools. Here's what some viewers had to say:

"I was impressed with the sensitivity of the story and found it to be very moving."

"Very inspiring."

"A roller-coaster ride of emotions. Loved it!"

"This movie should be seen by everyone."

Danny's Still Here is one hour and 45 minutes long, has original background music, and features remarkable acting talent. You can add this valuable teaching tool to your school's library for only \$20 by returning the form below.
